Report for One Week of Internship

Note: This form is to be submitted each week of the internship.

1. What were your goals in this week? Be as specific as possible.

My goals this week were to work on my video production class, update social media, and to work on updates for team website. I also was in charge of starting a new project for the website and had a meeting with the Kampot team about the website as well.

2. What happened in retrospect? How did you actually spend your time?

My video production class met once this week to work on editing. The students seem to have a good grasp on it and they will have the finished outline of the interview done by next week. This was a holiday week here in Cambodia so we were able to have a meeting with the team from Kampot.

3. What other notes would you make regarding your experience in this period?

I have had a rough go of things this week. We are pretty sure I have shingles. I have gotten to experience more cultural things this week as well. We went to the River side for the water festival and I got to try bugs. It has been a full week.
